www.linkedin.com/in/lucajunghans

A software developer currently seeking opportunity in back and front end development. With a strong interest and background in customer experience, marketing, and advertising.

A huge love of people that has been translated from the barbering and beauty industry. A goal to address engaging problems in user experience, information control, and customer technology interactions.

EXPERIENCE

Coding Dojo, Seattle, Wa — *Student/Junior development*

October 2016 - PRESENT

Completed an accelerated Software Development curriculum. Comprised of three full web stacks. Developed with strong MVC architecture.

MAIN PROJECTS

SongForSong — C#/.netCore || AngularJs

A mock angular/C# app that allows users to register to a SQL database and build a playlist from songs submitted by other users.

Princess(2d Top Down RPG) — C# Scripting || Unity
A personal solo project to reiterate OOP fundamentals.

OUTSIDE EXPERIENCE

Rudy's Barbershop, Seattle, WA — *Barber*

September 2015 - October 2016

Fast paced, high end barber shop. Seeing 12–15 clients/day in downtown Bellevue. Provided barbering education to beauty schools in the area.

Gary Manuel Salon, Seattle, WA — *Cosmetologist*

February 2013 - July 2016

Full service salon in Downtown Seattle where I maintained a retention rate of 75%, developed strong communication and project skills.
